This was the year that the Brotherhood and American association were in the field, and almost pushed the grand old league into ternity. Fans at that time did not take much notice of anything the players of the old league did, as all eyes were on the players who thought they could run a league better than it had been done in the past, and who tried it themselves for one year, and were glal thereafter to be just plain ball

MARQUARD PITCHING SENSATION
His Record Taking Away Some of Matty's Glory—Some Old Time Twirlers.

Richard (Rube) Marquard is today the pitching sensution in the major baseball leagues. Marquard by winning 19 games in a row has bettered modern pitching records, and though interrupted at Chicago, the fans are expecting to see him start another long string of victories. His feat will surely rank with the gractest, yet it must be admitted that while he has pitched sterling ball he bas also had the best of luck. There is no getting away from the fact that he has been lineity as well as a brilliant. At least, three times his winning string would have been interrupted before had he not been favored by unusual circumstances. Marquard, once a joke soon after the Glants paid \$11,000 for him, has made good and is taking the piace of prominence slipping away from Christy Mathewson.

Marquards victorious work suggests ofter nothole pitching successes. In other modern placed on the favored by unusual circumstances, Marquard, once a joke soon and the consequence of having the ball with one foot on the rear line, and the pitcher had to deliver the ball with one foot on the rear line, and the pitcher had to deliver the balls in those days were lively, something like ones the fans yelled themselves black in the face about last season, then their favorite chied did not take so much interest the majority of the record, the pitcher had to deliver the ball with one foot on the rear line, only one step being allowed. How long was he winning filts number? From August 7 until September 11 During that time, 43 dayshe work ed in 27 games. It was while the world's record of 20 straight games chit hat Radbourne was called upon do this wonderful pitching. Charles Saveeney, the other pitcher of the team fabout two pitchers those days were plenty), jumped his chib in midsummer, and the "from man" was pressed into service to win the flag, and his brilliant work accomplished the feat.

1. This is one of the records that Marquard would have to beat. In 1885 James McCormick, the semsation of the league then, won 24 straight games, and not even a tig was mixed up in his string of victories. The record of McCormick has been published so often it is not necessary to reprint it? It is worth while remembering that McCormick pitched and the purse of the purse of the purse.
